

Dear poets and friends,

My name is Juan Benito Rodríguez Manzanares, poet and creator of Jotabé rhyme.

I am writing to you with intent to let you know about Jotabé rhyme so you can see it for yourself.

Jotabé rhyme is a neoclassical structure composition of strophic poems, whose way of composition is structured according to the Formal Documentation about Composition of Poems in Jotabé Rhyme that I attach to you with this letter.

Jotabé rhyme was born in 2009 and since 2011 is celebrating the International Poetry Contest in Jotabé Rhyme, and this year, it has made the First International Congress of the Jotabé Rhyme, attended by speakers from different Spanish-speaking countries.

It would be a pleasure to count on poets with French/English speakers who wish it, in the next edition of the International Poetry Contest in Jotabé Rhyme, because my ambition in this respect is that the Jotabé rhyme reach all corners around the world.

Thank you for reading the Formal Documentation and pay attention to this writing. I leave at your disposal my e-mail address for any question you may have: [jb@juan-benito.com](mailto:jb@juan-benito.com)

Here is also a link where you can learn more and better about everything that happens around Jotabé rhyme: <http://www.juan-benito.com/jotabe.htm>

At the end of the year it will be called the VI International Poetry Contest in Jotabé Rhyme, of which I will send to you the English/French participation rules.

Thank you in advance for your attention.

Juan Benito Rodríguez Manzanares  
Poet and creator of Jotabé Rhyme.
